

(Effective November 1, 2024)

Irrigation / Swimming Pool Meters

The Wetumpka Water Works and Sewer Board will set an additional water meter, to be used strictly for watering lawns, landscape or maintaining swimming pools, for a fee of \$600.00 for a $\frac{3}{4}$ inch meter or \$750.00 for a 1-inch meter. The fee must be paid before the meter is installed. The irrigation meter will not be tapped onto our main. It will connect to the service line before the existing household meter. You may not have the same pressure that you currently have when using your irrigation, i.e. garden hoses etc.

Should the customer desire a totally separate connection for irrigation and /or swimming pool, a separate tap on the main will be \$1,500.00 for a $\frac{3}{4}$ inch meter/service. There will be a \$125.00 non-refundable account initiation fee, as required for all other meters, but you will not be charged a monthly minimum bill on this non-household meter. The customer will be billed for the actual water usage on this meter. The water rate will be the same as the current residential rate.

No sewer fees will be associated with the irrigation meter. The meter is strictly prohibited for any other purpose and cannot be connected to any dwelling for household use. Any violation will result in penalty fee of not less than \$500.00 for the first offense, and a second offense will result in the removal of the meter and additional fines.
